

EVACUATION MARSHALL

EVACUATION MARSHALL

Duration: 1 Days

Pre-Requisites: Literate

Target Group: SHEQ Practitioners; Middle Management; Supervisors; SHE Committee members; Employees, Contractors; Security Officials and Health & Safety Representatives.

INTRODUCTION

Being prepared for and knowing what to do in an emergency forms an integrated part of loss prevention. In order to optimize the effectiveness of an Emergency Response Plan, it is essential that all the affected stakeholders in the organization are familiar with and trained in the requirements of this Plan. This course provides employees with the techniques to effectively participate in the development and implementation of an Emergency Response Plan.

COURSE OBJECTIVES

An essential element in a successful Health, Safety and Environmental Management system is the planning for emergencies and anticipation for disasters. The objective of this course is to provide the learners with the necessary information to develop emergency plans, in order to maximize the effectiveness of the company during the management of an unwanted event, as well as to minimize consequential losses during the event. On completion of the course the learner will be able to define and describe:

- Hazards and risks
- Develop a physical emergency plan
- State the objective of the plan
- Appoint responsible persons
- Establish communication requirements
- Determine resources needed
- Develop procedures
- Establish training needs

Module 1: EMERGENCY RESPONSE PLANNING AND DISASTER ANTICIPATION

Module 2: DEVELOPMENT OF THE PLAN

Module 3: EMERGENCY PLANNING

Module 4: EMERGENCY PLAN DEVELOPMENT
