

GENERAL SAFETY

DURATION: 2 Days

PRE-REQUISITES: Literate

TARGET GROUP: SHEQ Practitioners; Middle Management; Supervisors; SHE Committee members; Employees, Contractors; Security Officials and Health & Safety Representatives.

INTRODUCTION

The general health and safety program provides the organisation the opportunity to establish safety management principles in the lowest levels of the organisation. The key to successful safety management is vested in the ability of all employees to participate in the OHS program, participation requires specific competence, which is provided by this course.

COURSE OUTCOMES

To equip learners with the general knowledge regarding SHE principles and the importance of OHS in industry.

On completion of this course the learner will be able to:

- Contribute to the SHE system by means of safe behavior;
- Identify potential hazardous tasks and conditions;
- Partake in safety decision-making.
