

HAZARDOUS SUBSTANCES

HAZARDOUS SUBSTANCES

DURATION: 1 Day

PRE-REQUISITES: Literate

TARGET GROUP: SHEQ Practitioners; Middle Management; Supervisors; SHE Committee members; Employees, Contractors; Security Officials and Health & Safety Representatives, Exposed individuals.

INTRODUCTION

This course is designed to provide the appointed and responsible persons with the necessary knowledge to effectively manage and control chemicals and relevant flammable materials storage in the workplace.

COURSE OBJECTIVES

Exposures to hazardous chemicals and misuse of flammables may lead to extreme financial losses in industry. This course is designed to equip the learner to establish effective compliance with HCS and flammable materials in the workplace.

OUTCOMES

On completion of this course the learner will be able to:

- Identify the hazards which chemicals and flammables pose;
- Explain the intention of the OHS Act relating to chemicals and flammables;
- Explain the health effects of chemicals to the human body;
- Route of chemical intake;
- Understand the safe storage and handling of chemicals;
- Define the use of PPE;
