

HAZARD IDENTIFICATION & RISK ASSESSMENT

HIRA

Duration: 2 Days

Pre-Requisites: Literate

Target Group: SHEQ Practitioners; Middle Management; Supervisors; SHE Committee members; employees, Contractors; Security Officials.

(All employees to ensure continuous base assessments are Initiated)

COURSE INFORMATION

Risk Management is the departure point for any safety program, hence it be a legal compliance system or a more complex International Standard System. Without proper risk control practices deployed in the company the changes to achieve compliance is slim. The duties placed on the employer in both the OHS Act and the OHSAS 18001 Standard is clear, measure the risk and establish controls for the significant risks.

COURSE OBJECTIVES

The material is designed to provide effective skills and competence in the full range of risk assessments and those tools needed to complete the risk methodology. The learner will be equipped to facilitate a risk assessment team in the workplace.
