

SAFE STACKING & STORAGE

Safe Stacking & Storage Training

Duration: 1 Day

Pre-Requisites: Literate

Target Group: SHEQ Practitioners; Middle Management; Supervisors; SHE Committee members; Employees, Contractors; Security Officials and Health & Safety Representatives.

INTRODUCTION

Sub-standard Stacking and Storage principles are one of the major contributors to industrial accidents injuries. Without proper principles implemented and maintained the storage areas can become a death trap. Most companies are also forced to stack outside the legal parameters, and therefore need to apply for exemption at the Department of Labour, without proper knowledge and effective OHS practices implemented the application will be denied.

COURSE OBJECTIVES

On completion of this course the learners will be able to understand the role of OHS with respect to Safe Stacking and Storing and will be able to perform their responsibilities to be in line with the OHS Act.

OUTCOMES

On completion of the course learners will be equipped with the processes and techniques to assist management with safety management in the stacking and storage practices of the company. The learner will further be able to define and describe and apply:

- Legislative Requirements
- Principles of Stacking
- Storage Facility Management
- Handling of Hazardous Chemical Substances

COURSE CONTENT

Module 1: LEGAL AND GENERAL RISKS

Module 2: PRINCIPLES OF STACKING

Module 3: STORAGE FACILITY MANAGEMENT

Module 4: HANDLING OF HAZARDOUS CHEMICAL SUBSTANCES
